PERSONAL PROFILE

An enthusiastic person who is always striving to develop and learn new skills. A self-motivator that takes the initiative to complete tasks both independently and within a team environment. Adaptable to change and a quick learner, I relish new challenges and resolving the obstacles that can arise. Able to communicate at all levels, always pays attention to detail, making sure everything is understood before taking immediate action.

Originating from a background in music production. I have been expanding my horizons in postproduction, sound design and foley over the last few years to continue to add value to businesses and clients. I can plan and prioritise work, managing tasks within tight timescales without compromising quality.
